Nosson Tzvi,
Shuey, and

Chaim C. created and memorized an 18 sentence poem filled with "oa" words. Now they really know how to spell all those "oa" words. We're so proud of all the effort the boys put in! Below, you can see how much they're enjoying their treat of ice cream and cake!

Yosef Tzvi and
Chaim created

their very own word "banks." They "deposit" new vocabulary words into the bank, and they can "withdraw" other words for review. The words are written on one side of an index card with a picture of the word on the other side. Each week, we accrue a hefty "balance" in our "savings" accounts. Keep up the great work!!

Morah Devoiry

Congratulations Avi, Eli Mordechai and Yehuda! We finally reached our goal of 100 days! Since we started the countdown, we added one stick each day to our special tally chart. This helped us learn and practice various methods of counting to 100, in a fun way. To celebrate the special occasion, we had a surprise pizza party at Chai Pizza.

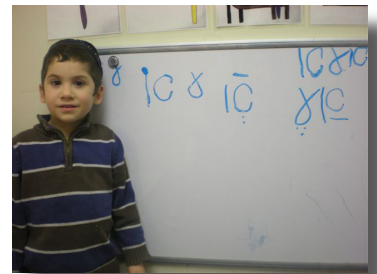

After spending much time learning about Pesach, our class can't wait for the real Seder. Each boy will bring home a beautiful Hagaddah, from which they can tell their families about the Pesach story. The boys learned about the hard work that the Yidden were forced to do in Mitzrayim, and about the tefillos that helped them earn redemption.

Look how beautifully Chaim writes Hebrew Script. His hard efforts are really paying off. Great Job, Chaim!

Morah Sarah K.

We are so busy learning all about Pesach! If you pass our classroom you can hear us practicing the Mah Nishtana and our Seder Song. We can't wait to bring home our special Haggadah and beautiful pillowcase.
